ACKNOWLEDGMENTS

Those listed below have served as consultants for Volume 8. We are grateful for their assistance.

Norman H. Anderson, *University of California, San Diego*
John Armington, *South Hamilton, Mass.*
D. E. Berlyne, *University of Toronto*
William Bevan, *Johns Hopkins University*
Thomas Bever, *Rockefeller University*
Donald R. Brown, *Purdue University*
E. C. Carterette, *University of California, Los Angeles*
Thomas Cornsweet, *Stanford Research Institute*
K. S. Egan, *Central Washington University*
Harold Egeth, *Johns Hopkins University*
William Epstein, *University of Kansas*
Merrill Garrett, *University of Connecticut*
James J. Gibson, *Cornell University*
Ralph Norman Haber, *Rochester University*
K. L. Hakmiller, *University of Connecticut*
Richard Held, *Massachusetts Institute of Technology*
R. M. Herrick, *Naval Air Development Center*
Arthur S. House, *Purdue University*
Leonard Katz, *University of Connecticut*
S. W. Keele, *University of Oregon*
John Krauskopf, *Bell Telephone Laboratories*
Leonard Matin, *Columbia University*
George A. Miller, *Rockefeller University*
Conrad Mueller, *Indiana University*
Allen Parducci, *University of California, Los Angeles*
Lorrin Riggs, *Brown University*
Irvin Rock, *Rutgers University*
Donald Shankweiler, *University of Connecticut*
Roger Shepard, *Stanford University*
Leroy A. Stone, *University of North Dakota*
Robert Teghtsoonian, *Smith College*
Hoben Thomas, *Pennsylvania State University*
Neal F. Viemeister, *University of Minnesota*
Hans Wallach, *Swarthmore College*

Weber, R. J., 165
White, M. J., 107
Wist, E. R., 15
Wolman, R. E., 161

Y
Yeatman, F. R., 46
Young, F. W., 363

Stereoacuity for oscillating targets exposed through apertures of various horizontal extents by A. Lit and W. M. Vicars, 348
Prism adapatation with simultaneous receipt of normal input by J. E. Foley, 393
Intermodality relations in localization in blind and sighted people by D. H. Warren and H. L. Pick, Jr., 430
Objective measurement of dominance control in binocular rivalry by S. C. Collyer and W. Bevan, 437

MOTION PERCEPTION
Stroboscopic motion: Effects of duration and interval by D. Kahneman and R. E. Wolman, 161
An investigation of the relationship between eye and retinal image movement in the perception of movement by A. Mack, 291
Visual movement perception: A comparison of sensitivity to vertical and horizontal movement by R. A. Kinchla and L. G. Allan, 399

HEARING
Detection of shift in binaural images: A rating method approach by L. F. Elfner and W. R. Delaune, 158
Training the absolute identification of pitch by L. L. Cuddy, 265
Discrimination of two auditory durations by pigeons by J. Kinchla, 299
Pitch memory for short tones by L. L. Elliott, 379
Intensity discrimination: Performance in three paradigms by N. F. Viemeister, 417

CHANNEL AND CUTANEOUS SENSES
Sweetness and intensity of artificial sweeteners by H. R. Moskowitz, 40
The discrimination of differences in duration of a thermal reinforcement by D. A. Kristt and J. A. Sechzer, 43
Gustatory, salivary, and oral thermal responses to solutions of sodium chloride at four temperatures by R. M. Pangborn, R. B. Chrisp, and L. L. Bertolero, 69
A note on responses to ethyl alcohol before and after smoking by S. Martin and R. M. Pangborn, 169
Olfactory adaptation and recovery in man as measured by two psychophysical techniques by G. Steinmetz, G. T. Pryor, and H. Stone, 327
Criterion shifts in the measurement of tactile masking by G. A. Gescheider, D. D. Herman, and J. N. Phillips, 433

INFORMATION PROCESSING
Sense modality switching and serial learning by A. Chan and R. M. W. Travers, 37
The coordination of visual and tactual input in infants by T. G. R. Bower, J. M. Broughton, and M. K. Moore, 51
Parallel processing of multidimensional stimuli by B. D. Downing and J. R. Gossman, 57
Retrieval from iconic memory with shape as the selection criterion by M. T. Turvey and S. Kravetz, 171

PERFORMANCE
Variation in cortical evoked responses as a function of performance criterion by D. W. Nielsen, D. C. Teas, and R. P. Idzikowski, 29
A comparison of Type II operating characteristics derived from confidence ratings and from latencies by L. Katz, 65
The investigation of ear asymmetry by simple and disjunctive reaction time tasks by E. H. Murphy and P. H. Venables, 104
Cognitive processing of uncertainty: Its effect on pupillary dilation and preference ratings by R. W. Pratt, 193

PSYCHOLINGUISTICS
Sentence comprehension and relative pronouns by D. T. Hakes and H. S. Cairns, 5
The perception of clicks in linguistic and nonlinguistic messages by A. S. Reber and J. R. Anderson, 81
Hierarchial chunking in sentence processing by W. J. M. Levelt, 99
Visual perception of rapidly presented word sequences of varying complexity by K. I. Forster, 215
Negation: A rejoinder to Wales and Grieve by J. M. Greene and P. C. Wason, 238
Visual recognition thresholds and dimensions of word meaning by A. Paivio and B. J. O'Neill, 273
Extended practice with a single-character classification task by J. Ross, 276
Search times for combinations of visual, phonemic, and semantic targets in reading prose by G. Cohen, 370
Decision processes during sentence comprehension: Effects of surface structure reconsidered by D. T. Hakes and D. J. Foss, 413

ATTENTION AND SEARCH
Looking time: Experimenter and instruction effects by B. T. Leckart, L. Gehres, and G. Thornton, 54
Memory scans based on alternative test stimulus representations by R. L. Klatzky and R. C. Atkinson, 113
The role of albedo and contrast in a test of selective attention by P. M. McDonnell, 270
Relative attention in judgments of heterogeneous similarity by H. Eisler and J. Knöppel, 420

Contents of Volume 8

Stability of apparent vertical and ocular countertorsion as a function of lateral tilt by H. A. Udo De Haes, 137

The time it takes to imagine by R. J. Weber and J. Castleman, 165

Conflicting visual and tactual-kinesthetic stimulation by J. A. S. Kinney and S. M. Luria, 189

Effect of stimulus duration on perceptual onset and offset latencies by R. Efron, 231

Novelty, complexity, and hedonic value by D. E. Berlyne, 279

Complexity-simplicity, symmetry-asymmetry, and sociometric choice by M. S. Grove and R. Eisenman, 427

PSYCHOPHYSICS

Psychophysical methodology: IV. Phi gamma hypothesis and the method of limits by R. M. Herrick, 61

The role of response processes in the formation of cross-modality assimilation effects by L. E. Melamed, 185

Statistical properties of staircase estimates by R. M. Rose, D. Y. Teller, and P. Rendleman, 199

Apparent combined length of two-line and four-line sets by L. E. Krueger, 210

Psychophysical scales of apparent heaviness and the size-weight illusion by J. C. Stevens and L. L. Rubin, 225

Effort in isometric muscular contractions related to force level and duration by J. C. Stevens and W. S. Cain, 240

A consistent failure of the power law for lifted weight by J. Ross and V. Di Lollo, 289

Relative frequencies of numerical responses in ratio estimation by J. C. Baird, C. Lewis, and D. Romer, 358

Nonmetric scaling of line lengths using latencies, similarity, and same-different judgments by F. W. Young, 363

DETECTABILITY

Increment detection thresholds during binocular rivalry suppression by R. Wales and R. Fox, 90

Children's frequency-selective detection of signals in noise by G. Z. Greenberg, N. W. Bray, and D. S. Beasley, 173

Selective attention in uncertain frequency detection by W. Larkin and G. Z. Greenberg, 179

Operating characteristics and a priori probability of the signal by A. L. Schulman and G. Z. Greenberg, 317

Spatio-temporal effects in visual gap detection by W. R. Uttal and R. Hieronymus, 321

Changes in absolute detection threshold and in subjective intensity of suprathreshold stimuli during olfactory adaptation and recovery by G. T. Pryor, G. Steinmetz, and H. Stone, 331

Three computational versions of proportion correct for use in forced-choice experiments by D. McFadden, 336

On the detectability of straight lines in visual noise: An extension of French's paradigm into the millisecond domain by W. R. Uttal, L. M. Bunnell, and S. Corwin, 385

VISION (GENERAL)

Visual on- and off-latencies and handedness by W. E. Kappauf and F. R. Yeatman, 46

Socioeconomic status, value, and response to number by T. M. Nelson and E. C. Lechelt, 76

Retinal locus and the letter span error function by M. J. White, 107

Jameson and Hurvich's theory of brightness contrast by H. R. Flock, 118

Improvable, yes; insoluble, no: A reply to Flock by D. Jameson and L. M. Hurvich, 125

An experimental test of Jameson and Hurvich's theory of brightness contrast by H. R. Flock and K. Noguchi, 129

Absolute sensitivity to white noise under auxiliary visual stimulation by G. G. Bothe and L. E. Marks, 176

Perceived angle of incidence and achromatic surface color by H. R. Flock and E. Freedberg, 251

A study of the Sherrington effect by C. H. Baker, 406

VISUAL MASKING

Safari to masking land: A hunt for the elusive U by C. W. Eriksen, B. B. Becker, and J. E. Hoffman, 245

A study of sequential blanking and overprinting combined by M. E. Tresselt, M. S. Mayzner, R. M. Schoenberg, and J. Waxman, 261

"Backward masking" of simple detection latencies by M. Grossberg, 308

The speed of visual processing in children and adults: Effects of backward and forward masking by P. H. Liss and M. M. Haith, 396

FORM PERCEPTION

Averaging model applied to the size-weight illusion by N. H. Anderson, 1

Shape correlates of visual and tactual size judgments: A contrast with complexity by D. H. Owen, 20

Errors of the standard in the horizontal-vertical illusion by G. C. Avery, 26

The effect of instructions on judgment of the Müller-Lyer illusion with normal and haptically mediated visual inspection by J. Eaglen and B. Kirkwood, 35

Enhancement of Sander illusion in minimal form by R. P. Runyon and M. R. Cooper, 110

On the Poggendorff illusion: A note to Cumming's criticism of Chung Chiang's theory by M. Farné, 112

Form identification in peripheral vision by G. W. Menzer and J. B. Thurmond, 205

Orientation specificity in chromatic adaptation of human "edge-detectors" by L. S. Fidell, 235

Simultaneous vs sequential discriminations of Markov-generated stimuli by B. R. Brown and T. J. Rebbin, 353

Parallel visual processing: Constant same-different decision latency with two to fourteen shapes by D. Donderi and B. Case, 373

Arm-movement responses to Müller-Lyer stimuli by F. L. Moses and M. J. DeSisto, 376

Two varieties of perceived length by R. Teghtsoonian and M. Teghtsoonian, 389

The assimilation theory applied to a modification of the Müller-Lyer illusion by A. W. Pressey, 411

SPACE PERCEPTION

Visual perception of direction when voluntary saccades occur: II. Relation of visual direction of a fixation target extinguished before a saccade to a subsequent test flash presented before the saccade by L. Matin, E. Matin, and J. Pola, 9

Do depth shifts resulting from an interocular delay in stimulation result from a breakdown of binocular fusion? by E. R. Wist, 15

Prism adaptation with opposed base orientation: The weighting of direction information from the two eyes by J. E. Foley, 23

Adaptation to displaced vision—the influence of distribution of practice on retention by R. Dewar, 33

On the relation of adaptation to field displacement during head movements to the constancy of visual direction by H. Wallach and L. Floor, 95

Model of visual adaptation and contrast detection by G. Sperling, 143

Adaptation to rearranged eye-foot coordination by H. H. Mikaelian, 222

Occurrence of theoretically correct responses during rotation of the Ames window by C. H. Graham and B. J. Gillam, 257

Aligning the eye to the activity of actively or passively positioned hand by M. J. Steinbach, 287

Adaptation to displaced vision: Amount of optical displacement and practice by R. Dewar, 313

Apparent image rotation in stereoscopic vision: The unbalance of the pupils by G. von Békésy, 343
